GUNNER GETTING THE RANGE BEFORE GIVING THE WORD TO "FIRE!"

This photograph shows a gun crew of the U.S.S. Florida, now in Vera Cruz harbor, getting into action. The gunner may be seen regulating his aim by means of a telescoping sight. This is the first proceeding before sending the steel jacketed projectiles on their death-dealing errands.

HALL EXPLAINS HIS STAND ADOPTED AT NORTH BATTLEFORD

Why He Opposed Resolution for a Central Advertising Organization.

FISHER IN ACCORD WITH OPINIONS HE EXPRESSED

Object to the Method Used to Allow the Scheme to Die a Natural Death.

"Mr. Fisher and I opposed the adoption of the resolution passed at the North Battleford convention for several reasons," said Industrial Commissioner Hall this morning. "In the first place, there were very few delegates at the convention; a count of certificates showed only ten who had paid railway fares to attend. This number was increased by railway officials and by some North Battleford people who were ruled in as entitled to vote on the resolutions, the chairman saying there were no delegates in the strict sense of the word so that all who were present might vote. As such, the thing proposed by the resolution—to form a central organization for advertising Canada—would give us, if carried out, an entirely superfluous organization; an organization for doing work that is now very well done by the Dominion government, the provincial governments, the big railway systems, cities, towns, and private corporations and others. No central organization such as was proposed could hope to better the work now done and could not, certainly, exercise any authority over these who are engaged in the work now."

Furthermore, the committee on resolutions stated, when pressed, that the resolution had no meaning; that it was intended to have no meaning; that a committee had been named with no idea that the committee will ever meet; that minority—made up of six or eight others besides Mr. Fisher and myself—was quite willing to leave the committee of organization to the committee named only two of whom were present at the convention and most of whom will probably justify the belief that the resolutions committee by never meeting, allowed the project to die a natural and painless death but objected to such a method of dealing with important matters and voted against the resolution. It was noticeable, too, that some of the most prominent railway men absented themselves at the time of voting.

"We had a fine time at North Battleford and I found the city very much improved since I was there two years ago. A new hotel, a fine post office building, two splendid school houses, street improvements, and a lot of general building have made great changes in North Battleford since I last saw it and wrote a lot of publicity about it."

PREMIER BORDEN IS QUESTIONED REGARDING EDMONTON UNEMPLOYED

Ottawa, Ont., May 16.—At today's morning session a number of routine bills were taken up and advanced a stage. Hon. Frank Oliver asked if the prime minister had received a telegram from the Civil Relief officers of Edmonton. Mr. Borden said that the telegram referred to had been received this morning. Mr. Borden added that nothing had yet been done in regard to the matter. Mr. Oliver asked if action would be taken on Monday. Mr. Borden could not say. "I give notice now that I shall make further enquiry on Monday," said Mr. Oliver. "I give notice that I shall answer to the best of my ability," replied the prime minister.

CONSTITUTIONALISTS OCCUPY TUXPAM ON EAST COAST, MEXICO

Washington, May 16.—Tuxpam, on the east coast of Mexico, between Vera Cruz and Tampico is in the hands of the Constitutionalists, according to a report to the state department today from Consul Canada at Vera Cruz. Consul Canada said a party of Spanish refugees, arriving in Vera Cruz from Tuxpam in a launch informed him that Constitutionalists under Gen. Aguila had occupied the city.

EVERY FACILITY WILL BE AFFORDED PEACE ENVOYS IN CANADA

Ottawa, Ont., May 16.—Hon. L. D. Pelletier, postmaster general, wired this morning to Chief Superintendent Ross of the Toronto post office to make all arrangements at Niagara to facilitate the handling of the mail of the peace envoys who meet there on May 20. Similar orders have already gone from the customs department to extend every facility to the distinguished visitors to Canadian soil.

Robert Stewart Not Guilty
Saskatoon, May 16.—Robert Stewart, a Saskatoon real estate agent, charged with perjury and forgery, was last night found not guilty on both counts. The jury was out for seven hours in reaching a decision.

ICE FAMINE CREATED IN MINNEAPOLIS BY STRIKE OF DRIVERS

Minneapolis, Minn., May 16.—Minneapolis ice wagon drivers on strike since Thursday have succeeded in creating a famine in that commodity. Cafes, hotels and clubs the heaviest users of ice are at their wit's end. One proprietor of a big cafe himself drove a wagon today to the warehouse

AMMUNITION IS DISTRIBUTED TO ULSTER'S ARMY

Selected Volunteers Will Resist Attacks on Protestants.

ROMANIST SERVANTS ARE WARNED TO LEAVE CUSTOMS OFFICERS KEEP STRICT OUTLOOK FOR SMUGGLED ARMS.

Toronto, Ont., May 16.—A special cable from Belfast today says: "General Paget concluded his visit to Newcastle yesterday and returned to Dublin. General McNeill at the city hall yesterday. The interview was strictly private and, it is assumed, had reference to the relation of the civil and military forces in the event of certain happenings."

To avoid bloodshed and strife in Donegal Romanist servants have been warned to leave by protestant employers before July 1. Party feeling is extremely acute in Donegal. Protestants remain on guard while the Irish Nationalist volunteer movement is steadily increasing.

West of Ireland customs officers are keenly on the lookout for smuggled arms. Several steamers were searched fruitlessly in consequence of reports of gun-running. "Rigid orders have been issued to Ulster volunteers everywhere not to notice the Nationalist demonstrations that are sure to follow the passing of the home rule bill. Sir Edward Carson today urged that the orders be obeyed to the strictest letter. Rifles and ammunition heretofore kept in depot are to be distributed to selected volunteers in districts where it is thought possible that Nationalist malice may lead to attacks on isolated protestants."

and pleaded with the pickets to allow him enough to tide over Sunday. Mayor Nye has called a conference between strikers and ice company heads, and also served notice that any attempt to interfere with business men or householders who attempt to haul their own supply will be met with violent police interference.

LADY KNOCKED DOWN BY AUTO ON JASPER AND BADLY SHAKEN

Mrs. J. Bell of 428 Ninth street was knocked down by an auto belonging to Thos. Fraser, 428 Second street, about 6:30 last night. The accident occurred on Jasper avenue between First and Howard streets. The lady was crossing the street and apparently did not see the approaching car until it was close upon her. She was picked up and carried to the C.N.R. telegraph office, where she was attended to by a physician. It was found that she had received no more serious injuries than a bruise over the left eye and a severe shaking up.

BUILDING PERMITS THIS WEEK EXCEED SAME WEEK IN 1913

A building permit has been taken out at the south side offices of the building inspector's department for the construction of a new building on the University of Alberta grounds. The building will be placed immediately to the front of the present building, and will face on Eighth street northwest. The permit calls for a building of the value of \$400,000, which will make a very stately and beautiful addition to the present University buildings. The building will be known as the "Arts Building."

The building permits for this week number 72 for a total of \$424,350, compared with 116 permits for a total of \$298,600, covering the same period last year. For the week ending May 9 there were 79 permits issued showing a total of \$462,800. Up to date there have been 841 permits issued by the building inspector's department, showing a total of \$2,481,247, and for the same period last year there were 1,253 permits taken out, making a total of \$2,986,200.

CITIZENS' VIGILANCE COMMITTEE FORMING COPE WITH I.W.W.

With a view to coming with the possible trouble which they believe may arise should large numbers of unemployed be brought in by the I.W.W. or others from other cities, a citizens' vigilance committee is being formed, under the direction of H. Woodford. The organization was only begun this morning, but Mr. Stafford stated at that time that 50 had already been enrolled, mostly merchants of the city. It is proposed to back up the city police should trouble arise.

At the Canadian College, Rome, May 16.—Mgr. Beatin, Archbishop of Quebec, has arrived at the Canadian college, where he will remain until the consistory May 25, when he will receive the cardinalate. Abbot Gasquet, who will also be honored, has decided to take his title from the church of St. George in Valparaiso, famous as having been the cardinal's church of Cardinal Newman.

Late James Kennedy. The funeral of James Kennedy who died on Thursday afternoon, will take place this afternoon at 3 o'clock from his home at Clover Bar. Rev. Mr. Connelly of Clover Bar will officiate.

"THEY WOULD NOT HESITATE ON ANY OCCASION TO GET A GRIP ON THE CITY AND ITS CONTRACTS," HE DECLARES

When Asked If He Had Any Ground for Believing That Any Alderman Had Been Grafting, He Answers That If He Had His Suspicions That Was His Own Affair — He Adds: "A Guilty Conscience Needs No Accuser, and If the Cap Fits Anybody They Are at Liberty To Wear It."

Mayor McNamara was asked this morning if he would make a definite statement as to whether or not there was any ground for charging graft against members of the council. The mayor refused to make any definite statement, saying that if he had his suspicions that was his own affair. "Is there any member or are there any members of the city council, or anybody in the city's employ, directly or indirectly connected with any of the paving companies," was asked. The mayor answered: "Not to my knowledge. You had better get this information from those concerned."

MEN APPLY FOR PERMISSION TO WORK FOR BOARD

City Will Not See Men Starve, Says Commissioner Booth.

SITUATION ALMOST ENTIRELY RELIEVED

City Officials Accept Invitation for Trip to Portland Cement Works.

Commissioner Booth stated this morning that he was of the opinion that the unemployed situation was practically cleared up. There were eight men who applied to be sent to the city farm this morning for work for their bed and board. "Indications are that there will be a number avail themselves of this opportunity as soon as the privilege becomes generally known," stated the commissioner. "There was no demonstration yesterday and I believe that the men are now falling in line when they see that they cannot say that the city will allow them to starve," added commissioner Booth.

PRINCE OF WALES GIVES CHECK FOR ULSTER AID; FATHER STOPS PAYMENT

London, May 16.—King George stopped payment on a check given by the Prince of Wales to the Ulster Volunteer fund according to London club gossip.

GASOLINE OIL CONTINUES TO POUR OUT IN CALGARY WITHOUT ANY DIMINUTION

Calgary, Alta., May 16.—The baler at the Diamond Well No. 1, near Black Diamond, is still bringing up the gasoline oil from the deep well, this morning without any apparent diminution in the flow. A big motor truck load of gasoline tanks or drums containing forty gallons, about fifty tanks on the truck, was sent out to the well yesterday and these are being filled today by the baler. The drums that were filled yesterday were brought into the city and stored. Meanwhile the directors are discussing plans for storage tanks to hold the precious fluid, which is also pure gasoline. Excitement over the oil situation in the city continues to grow and policemen are needed at the doors of the

various agencies selling stock in the oil companies to hold the crowds in line.

It is estimated that more than half a million dollars has already been put into stock of the various companies drilling or about to drill and the development work will now go forward with feverish activity.

POPULATION OF CITY EXPECTED TO REACH 70,000

Increase Will Be From 2700 to 3000, But Less Than Last Year.

TWO-THIRDS INCREASE IS ON THE SOUTH SIDE

Census Taking Will Occupy Longer Time Than Was Anticipated.

The civic census enumerators are meeting with more delay in completing the census than was anticipated at the beginning of the week. Several of the enumerators have not been able to find many of the residents in when they called and this has necessitated a second call.

From the present indications there will not be an increase as large as last year. There will be, apparently, between 2,700 and 3,000, an increase which will give the city a population of about 70,000.

The returns which are practically all from the south side show that approximately two-thirds of the increase in population will be on the south side of the Saskatchewan.

Last year the official census gave the figure of 67,448. If anyone in the city has been missed he should phone 5522 or call at room 161, Civic block.

KOREAN SENTENCED TO DEATH FOR THE MURDER OF DOCTOR

Tokio, May 16.—Tomitaro Watanabe, a Korean, was sentenced to death today for the murder two months ago of Dr. Edgar Demott Siksky, formerly of Harbin, N.J., who was head of the hospital near Hukel, Korea.

ALEXANDER LIVINGSTONE IS DECLARED TO BE NOT GUILTY OF SPEEDING

The case of speeding brought against Alexander Livingstone was dismissed this morning in the police court. It was proved that the car caught speeding did not belong to Mr. Livingstone at all. The second charge of having no number plate on the car was withdrawn for the same reason.

Military Aviator Killed.

Sebastopol, Russia, May 16.—The military aviator Semichukov fell from his aeroplane during a flight yesterday and was killed.

GENERAL NAVARETTE

Probably the most able of the army officers on General Huerta's staff. Work has been created to the effect that Navarette has been shot.

PRINCE OF WALES GIVES CHECK FOR ULSTER AID; FATHER STOPS PAYMENT

London, May 16.—King George stopped payment on a check given by the Prince of Wales to the Ulster Volunteer fund according to London club gossip.

UNEMPLOYED WILL WAIT ALL MONDAY, STATES SECRETARY

To Then Play "First Card" if
Booth Does Not Keep
His Word.

MARKET MERCHANTS "MERE COCKROACHES"

Have Whole Province Organized Ready to Take Coordinated Action.

"We promise Mr. Booth we would wait until Monday noon, and well keep our word. Personally I think it will keep his word but if nothing different is done by the city for the unemployed by that time we will play our 'first card'."

This was in part a statement made by James Brown at the meeting of the unemployed held yesterday afternoon. He told the men that if the situation was not bettered by the time stated, they would take action.

"This is the first card we will play," he continued, "and if that does not work there are other cards that we hold and are ready to play."

The card referred to means the bringing in of all unemployed of the province, the leader stating that they were organized in such a way that it was practically a matter of pushing a button and the call would be responded to by the out-of-work in every city, village and hamlet in the province.

Another subject which was dealt with by the speaker was the petition that had been signed by the farmers who have stalls on the market square, asking the city to prohibit the unemployed from speaking and meeting on the square as it had a tendency to injure their trade. Brown stated that the nine merchants in question were mere insignificant cockroaches and that should the city take action and forbid the unemployed from meeting in the market square they would hold their meetings elsewhere where it would mean more inconvenience than when they held it on the square and further they would then call on all the unemployed in the province to swell their ranks.

The point of the citizens forming a vigilance committee was then dealt with and the secretary, J. H. Brown, stated that even if such an organization were formed it would do no good because even if they were to run the leaders out of town there would be others to step into their place and carry on the work just the same.

"Besides," he added, "for one would rather die fighting than lead a workman's life, for I would not miss much if I were dead."

AMERICAN REPRESENTATIVES AT NIAGARA PEACE CONFERENCE

Hon. J. R. Lamar.

FIGHT FOR LIFE OF CHAS. BECKER STILL GOES ON

Widow of Leftie Louie Declares
She Lied to Save the Man
She Loved.

BECKER'S CHAUFFEUR CAUSES COURT SURPRISE

Alleges Threats Were Used to
Induce Him to Give Un-true
Testimony.

New York, May 14.—Mrs. Lillian Rosenburg, the young widow of "Leftie Louie," one of the four gunmen executed last month for the part they played in the murder of Herman Rosenthal, yesterday was a witness for the state at the trial of Charles Becker, charged with being the instigator of the plot her husband promised to carry out. In swearing she heard Jack Rose argue with Becker and his companions to kill Rosenthal because Becker wanted them to, and that she gave the quartette the green light when they received in payment for the crime, the pretty widow of the dead gunman directly contradicted the testimony she gave at her trial and further what district attorney Whitman declared to be "proof beyond all doubt" that the witnesses for the state had told the truth.

Lied for Love.
On cross-examination the widow of "Leftie Louie" was asked why she had not testified at the trial of the gunmen as she did yesterday. With tears in her eyes the girl answered: "I lied then because I wanted to have the man I loved from the electric chair."

Mrs. Rosenburg appeared to be on the verge of collapse, but she grasped the arm of the witness chair and quickly regained control of her emotions. Mrs. Rosenburg's statement discounts the confusion alleged to have been made by "Dago Frank" Croft, just before the gunman was electrocuted, as saying he never heard the name of Becker mentioned in connection with the murder plot.

During the same session of court, a witness, formerly a chauffeur for Becker, declared an assistant district attorney had threatened to have him indicted if he failed to give untrue testimony that would have been damaging to Becker's case. Counsel for Becker expressed themselves as being highly satisfied over this admission. More testimony was taken yesterday than at any previous session of the court, and the state said that it expected to complete its case on Monday, to which day the trial was adjourned.

Minion Manton, Becker's counsel, said at the end of the day that if the state finished by Monday the defense would close by Thursday night.

Fixed for Stealing Fares.

Regina, May 16.—George Sykes, conductor on the street railway, was fined \$5 and costs in the police court for converting to his own use fares collected while on duty.

MAYOR REFUSES TO GIVE REASONS FOR NOTING MONEY

Hon. F. W. Lehman.

C.N.R. OFFICIALS ARE OPTIMISTIC AFTER TRIP WEST

Train Service on Calgary and
Camrose Lines to Be
Greatly Improved.

EASTERN BRANCHES SHOW BIG GROWTH

Crop Situation Excellent—
General Revival Evident in
Business Expected.

Winnipeg, May 14.—George H. Shaw, general traffic manager, of the Canadian Northern railway, returned yesterday afternoon from an extended trip over the C.N.R. main and branch lines, having been inspecting the conditions existing generally. They visited all the points touched by the road in Saskatchewan and Alberta. All are most optimistic as to the future and especially satisfied with all they saw enroute. The following statement was given out by them:

"From personal observation and information received from business men and those competent to judge of local affairs, the crop area in those provinces will exceed that of last year, and has been seeded under favorable conditions. The distribution of goods from such jobbing centers as Regina, Saskatoon, North Battleford, and other points, is in a very active way, considering that this is the quiet season of the year in an agricultural country. The distribution of goods from such jobbing centers as Regina, Saskatoon, North Battleford, and other points, is in a very active way, considering that this is the quiet season of the year in an agricultural country. The distribution of goods from such jobbing centers as Regina, Saskatoon, North Battleford, and other points, is in a very active way, considering that this is the quiet season of the year in an agricultural country."

"The introduction of our summer schedule, some minor changes will be made in our train schedule, and the service will be greatly improved on the Saskatoon-Calgary and the Calgary line, details of which will in due time be publicly announced. The Red Deer and Lethbridge lines will be extended to a great benefit to the residents of the prairie section of central Saskatchewan."

"Our eastern lines continue to show a steady growth in freight tonnage. The Toronto-Ottawa line will show a similar increase, as it is the shortest line between the province and the capital. The service is still in the hands of the contractors. A through service between the province and the capital will be established immediately the road is completed."

"The livestock traffic of our western lines shows great improvement. With its union stock yards, it is not alone the beneficiary. Calgary and Edmonton, with their modern abattoirs, secure western farmers of permanent markets for cattle and hogs."

"The importance of animal husbandry to successful agriculture is a fully recognized by the up-to-date farmer and the conversion of coarse grains into meat products should add materially to his bank account, and at the same time assist in keeping up the fertility of his land."

DUNCAN MARSHALL IS EDMONTON OFFICIAL ON WESTERN LEAGUE

North Battleford, May 14.—At the close of the colonization and development convention yesterday a provisional committee was appointed to take the necessary steps to secure the cooperation of the various bodies interested in the early formation of a permanent organization.

The recommendation, which was brought in by the committee on resolutions, did not pass without opposition. Geo. M. Hall, industrial commissioner of Edmonton, stating that the attendance at the convention was of interest shown did not warrant such a step. He was supported in his opposition by J. T. Fisher, secretary of the Edmonton board of trade, but the majority was against them.

The following are the Alberta members of the committee: Hon. Duncan Marshall, minister of agriculture; W. E. Atkinson, president of the board of trade, Calgary; and President Marchand of the Lethbridge board of trade.

Philippine islands rice crop last year was 1,120,427 casks, valued at \$10,518,561.

A SEPARATION GRANTED

Not by process of law, but by the silent working of "Putnam's" are corns separated from aching toes. Any corn that "Putnam's" does not remove hasn't been discovered yet. Insist on Putnam's Corn Extractor only, 25c. at all dealers.

to be done and that it was the decision of this council to do this work. We should have known it. We spent weeks on it to have it not done." stated Alderman Smith to the mayor.

"You didn't spend weeks on it," interrupted the mayor.

"Now you keep quiet until I tell you something about the money," said the mayor. "We spent weeks on this paying program. It was the decision of this council that it be done. We were further assured by you that there would be no difficulty in carrying out the work this year. This was not once but many times and I think it ill behooves you, as mayor of this city to get cold feet now."

Smith Opposed By.

"I am surprised to hear Alderman Smith talk in this way, when he on the platform turned down the several times the question of paying the cost," remarked Alderman Smith.

"That was really a mandate that you didn't desert paving," stated the mayor.

"It was a mandate from the people as to the method of doing the work," shot back the alderman.

"The advertising is in progress now. We have no doubt as to the success of the work. Why, even the dealers are not entitled to be sold until the end of next month," stated his worship.

"We passed an estimate and that is our request to the commission board to give us advertisement for tenders. What authority did you have for that?" asked Alderman Driscoll.

"That has nothing to do with it," replied the mayor.

"What authorization do you require? If you would kindly state what further authorization you require I think I am authorized to state that I have quietly stated Alderman Smith."

"Would it not have been possible for you to have stated that you had advertised and had this thing started?" added the alderman.

"I am not in the line of assessment and consequently the advertisement is now in progress," remarked the mayor.

"The mayor stated that one reason why it was inadvisable in his opinion not to carry out the paving program was the cost of the work. The cost of the work is now in progress," remarked the mayor.

"We never had a working capital yet. It was managed to lay a good deal of paving," pointed out Alderman Smith.

It was decided upon motion of Alderman Driscoll to lay the report of the commissioner on public works recommending a municipal bond issue for paving plant on the table until such time as it was decided how much paving it was to be done.

Alderman Clarke made an attack upon the acting premier because he had not carried out the program of paving the city was now suffering from the generosity shown the unemployed by the city.

A. T. Cushing was before the council and stated that the welfare league was ready to start the work on the city's back up in the morning. He stated that the welfare league was ready to start the work on the city's back up in the morning. He stated that the welfare league was ready to start the work on the city's back up in the morning.

Before the fire fireworks started Alderman Smith wanted to know what had been done with the two million dollars that had been raised at the beginning of the year on unpaid debentures for 1913. In this case of debentures the money for the completion of the paving program for 1913 is included. Deputy Commissioner Richardson stated that it had been partially used for sewer work and on parks.

"I understand," said Alderman Calder, "the city purchased a trenching machine and experience has proved that it was a waste of money. The recommendation of the city engineer came down long after the machine had been purchased. This proves that it doesn't save money to the city and it isn't the policy of the city council."

"I was in Mexico City recently and they were very emphatically stated that their trenching machine was paying," remarked Alderman East.

The mayor stated that he understood that Commissioner Saunders had purchased the machine at about half the regular price.

Upon motion of Alderman Sheppard it was decided to extend the pound limits to the present city limits.

It was decided to adopt the recommendation of the safety and health committee, and to recommend that the manure loading station be placed on Elizabeth street next to the livery barn.

L. B. McDonald and Son, who expected that there will be any protest from the placing of the station in the location, were not present at the committee meeting on Thursday and no protests were heard.

The assessment rolls for 1914 were approved and the city assessor was instructed to send out the tax notices, dated the 18th of this month.

Announcement Caused Increased Activity All Along the U.S. Border.

Mexicans Said to Have Contravened Rules of Civilized Warfare Over Parks.

Toronto, May 16.—Saltillo is being attacked from all sides by a rebel army numbering nearly 25,000. Early Friday, the rebel forces, which for a week have been driving the federal forces from their positions, began closing in on the city proper and rebel artillery began a bombardment which already appears to have done great damage to the city.

Toronto advises to rebel officials here that the rebels are fighting desperately, but that the rebels have succeeded in reaching the first line of the city, and are now in the process of hemming the federal within the city proper. Villa, it appears, opened the attack quickly after reaching the outskirts of Saltillo with the Torreon force.

Now Open for Arms.

El Paso, May 16.—The attitude of the American administration with regard to the embargo on arms caused immediate action along this line on the border yesterday. The shortness of arms has been recognized by them in close touch with the government, and the government of northern Mexico had to face.

General Villa has made two urgent appeals to the United States government through the press correspondents to have the embargo on arms lifted, declaring freely that the constitutionalists needed more ammunition than they had to carry their plans to completion, and asserting that the lifting of the embargo would prove the quickest and most humane way of ending the unrest in Mexico.

When the announcement came over the wires last night that there was no prohibition against shipping arms and ammunition into Tampico from the United States or elsewhere, there was an immediate exodus of arms and ammunition sellers, who hurriedly sought the point where they would come into closest touch with arm shipments.

The constitutionalists, according to well informed men along the border, were uncertain as to whether American arms companies would sell their products to the rebels. Tampico was open, it was said that the most logical way to secure ammunition for the rebels was to ship it through the product of American manufacturers.

The rebels freely stated by the arms agents that a silent and tacit prohibition from the state department would prevent the sale of a single cartridge from the manufacturer and would prevent a more effective embargo than the guards along the border.

With the announcement last night the problem of the constitutionalists is solved, according to Robert V. Carrigan, personal representative of General Carranza.

General Villa, May 16.—Postponement of the Niagara Falls Mexican mediation conference from next Monday to the following Wednesday at the request of Huerta delegates changed the plans of the South American mediators and the American commissioners for departure today or tomorrow and postponed at the same time much speculation as to possible significance in the delay.

There were many developments in the day clearing the horizon for mediation from next Monday to the following Wednesday at the request of Huerta delegates changed the plans of the South American mediators and the American commissioners for departure today or tomorrow and postponed at the same time much speculation as to possible significance in the delay.

ARRANGEMENTS FOR BIG TIME IN EASTERN CITIES

J. W. Brighton, Back From Chicago, Announces Entertainment Preparations.

DINNERS AND AUTO RIDES EVERYWHERE

Those Already Making Deposits Will Fill Five Cars to Capacity.

At the very most one more sleeping car is all that can be comfortably accommodated by the excursion train to be run to the Toronto advertising convention by the Edmonton Industrial association in June. Up till noon today 125 had made deposits for berths, and more are coming in all the time, not only from the city but from outside. A sleeper will hold about 25 passengers with comfort, which means that at present payments have been made for transportation by a sufficient number to fill five cars to their capacity. One more, or six in all, is as many as the train can take, it is stated, as there will also be two diners, a day coach, a baggage and an observation.

J. W. Brighton returned this morning from a trip as far east as Chicago and stated that arrangements for the entertainment of the Edmonton excursionists will be finished by the city at which stops will be made as soon as the schedule is definitely decided upon.

While in Chicago Mr. Brighton saw Secretary Miller of the Chicago association of commerce, who stated that that association was preparing to give the visitors a ride through the city and a luncheon. A stop of 12 hours or more will be made in the windy city, which will give four or five hours besides the time taken up by the drive and supper.

At Milwaukee similar arrangements are being made as at Chicago, a drive and supper being also on the boards there.

At Racine, Wis., perhaps the most enjoyable time of all on this side of Chicago will be had, as the association of commerce there intends to take the visitors to luncheon at the country club, which is said to be one of the finest in America. They will also be shown through Horlick's Malted Milk

PRIVATE OFFICE

Some to
Back in
Ten minutes

Cramming down ill-chosen food, and rushing back to work, leads straight to dyspepsia, with all it means in misery.

Proper habits of eating, with a Dr. Dru-CO. Dyspepsia Tablet after each meal, restore good digestion, health and happiness.

A box of Dr. Dru-CO. Dyspepsia Tablets costs but 50c. at your Druggist's. National Drug and Chemical Co. of Canada, Limited.

plant, the J. I. Case threshing machine and automobile works, and other industrial works.

At the twin cities, St. Paul and Minneapolis, a joint entertainment is being arranged by the St. Paul association of commerce and the Minneapolis Civic and Manufacturers' association. It will probably include a drive around the interesting points in both cities and a luncheon, or a reception in one of the fine hotels or auditoriums there.

The Winnipeg Industrial bureau, through the commissioner, C. F. Roeland, has taken over the arrangements in Winnipeg, but no details have yet been fixed.

East of Chicago stops will be made at Mount Clemens, Mich., where the famous sanatorium is located; Battle Creek, Lansing, Detroit, and Port Huron, Mich., and Stratford and Guelph, Ont. Commercial bodies in these cities also expect to make it hot for the Edmonton live wire and are wiring the association for information as to when the train will arrive at the various places. This morning a wire was received from the secretary of the Stratford board of trade regarding the matter.

Mr. Brighton has been east four times since last summer, but is going to try to get away again next month, as he believes the trip will surely be worth while for every standpoint. He states that the east has been having very heavy rains recently, the weather being much inferior to that which has prevailed here this spring. He saw the autographe parade in Chicago, in which 15,000 women took part.

ALBERTA RAILWAY BUILDING PROGRAM SHOULD BE LARGE

Stated Work on Northern Territorial to Commence in Thirty Days.

FROM EDMONTON TO LAKE ATHABASCA

Other Companies Tapping North Country Starting Active Construction.

It is stated on good authority that railway development in the north country, vitally affecting Edmonton, may take place this season by a rather unexpected occurrence, the Northern Territorial railway, which proposes to build a railway from Fort Churchill on Hudson's Bay to Port Eslington, a port near Prince Rupert, on the Pacific coast, and a connecting line from Edmonton northward via Fort McMurray to Lake Athabasca.

Two or three years ago construction was to have commenced on this road, but at just about that time the worldwide financial depression came on, with the result that the start was delayed. Bonds are to be guaranteed to the extent of \$20,000 a mile, it is said, and a subsidy given by the dominion government of land equal in value to \$6,000 a mile.

Companies Now Starting
Now that the money stringency has passed away and since the north is beginning to open up and a cry for transportation facilities is heard, some of the railways which have had charters for years are beginning to look about them and, if rumors going the rounds of the people that ought to know are true, it is probable that Alberta will this year see railway development to an extent hardly thought of during any year previous.

The Northern Territorial is one of the companies which has decided to go ahead with work this year, according to this information, and the part of its road which will be built first is that between Edmonton and Lake Athabasca. This is to be started in six or eight days. H. Neville, chief engineer, has been over the whole territory which the line is to traverse

ITALIAN VOLCANOS EXTREMELY ACTIVE, BUILDINGS FALLING

Naples, May 16.—Mount Vesuvius again is active. Last night a big column of vapor and tongues of flames were seen coming out of the crater. Catania, May 16.—Earthquake shocks continue with alarming infrequency. About Etnea is extremely active. A number of the houses weakened by previous shocks have fallen. Fortunately, however, there have been no fatalities as the populace of the city and countryside is camped in the open.

and knows the country. He has had more experience in railway engineering in the old country and elsewhere.

Between Two Others
Route plans have not been filed yet, but it is thought that the line will go from Edmonton northward between the C. N. R. Athabasca branch and the A. and G.W. to Fort McMurray, thence to Athabasca on the west side of the Athabasca river, tapping a big rich country.

A. P. R. and E.
H. Munkittrick, vice-president of the Alberta, Peace River and Eastern railway, which has a charter to build from the southern part of the province west of the C. and E. line of the C.P.R. to the Peace River country, is now on the way from London, presumably for the purpose of beginning operations on that road also. Various rumors have been afloat from time to time regarding the identity of the line, and the company. Many believe that the Hill interests are behind it, but is said by all to be a genuine railway proposition.

Plans show short branches running from the proposed main line, Calgary and Edmonton, while the main line continues north through Sawridge and north of Lesser Slave lake to the Peace.

Welshman Also Building.

Another road which will cut through the heart of the north country is the Pacific, Peace River and Athabasca, promoted by the Welsh coal magnate, A. A. Thomas, probably the richest coal miner in the world. This line will extend, according to preliminary proposals, from Prince Albert northwest via the north bank of the Peace River to a point on the Pacific north of Prince Rupert, tapping the famous Groundhog and Pacific coast lines.

A report from Vancouver states that survey parties are now being sent out in three different places to blaze the trail for the steel.
The Pacific and Hudson's Bay railways, another transcontinental, running from Bella Coola on the Pacific between Vancouver and Prince Rupert, to Hudson's Bay via Pine Pass and Groundhog, is also reported to be about to start construction this spring.

CALGARY OIL MAD; MONEY FOR SHARES SIMPLY DROPS IN

Nobody Will Sell, Everybody Wants to Buy—Values in Confusion.

SHARES SOAR FROM \$12.50 TO \$200 EACH

Roads Between City and Wells Lined With Men and Autos.

Calgary, May 16.—If there is a jubilation on the map of North America today, that town is Calgary. The strike of oil in the well south of here is believed to be one of the most remarkable ever seen on the continent. Over a signed statement O. G. Devenish, president of the Calgary Industrial bureau, credits the well with a product of from 150 to 200 barrels every 24 hours of oil that analyzes 62 Baumgrader, worth the neighborhood of \$2,000 per day. In addition to the oil, the gas output is estimated at 2,000,000 cubic feet. The well is said to contain from one and one-half gallons of gasoline to 1,000 cubic feet, and it has been demonstrated that these gasoline values can be extracted from the gas at a profit.

Cynithum Craide, the British oil expert, whose opinion has weight with the British admiralty, said last night in an interview with the correspondent of the W.P. that he was of the opinion that the strike had proved beyond a doubt that there was a paying oil field in the north of Alberta. Mr. Craide added that he thought that even better and more valuable finds would be made with more development.

The city is oil mad. Half a dozen companies were taking subscriptions to the W.P. that he was of the opinion that the strike had proved beyond a doubt that there was a paying oil field in the north of Alberta. Mr. Craide added that he thought that even better and more valuable finds would be made with more development.

The well will probably develop into a paying proposition, although rumors of a gusher reached the city this morning when it was reported that the oil was being pumped up into the air, attaining a height of 80 feet. This was caused by a rush of gas, according to a message received from the well last night, and it subsided a few moments after the occurrence. But for probably two minutes the fluid gushed forth and those who witnessed the occurrence were of the opinion that a gusher had been brought in.

The stock of the Calgary Petroleum Products company advanced during the day from \$12.50 to \$200 a share, and there were sales of over a billion figure.
In offices, in street cars, in shops and on the street this morning nothing can be heard but gossip of oil—the idle talk of the last few weeks, and this time the repetition of cold hard facts regarding the strike of oil in the Dingman well. Everybody, whether interested directly or not, in oil is talking and thinking of nothing else, and it proves a universal subject which is interesting everybody from the financier to the man sweeping the streets.

The various oil companies of the city, which to some extent, been preaching to a doubting public for the last month, this morning, with the roaring business, and in many places it was necessary to have police in front of the offices to keep the waiting crowd in check. In one office the flow of real money was said to be so fast that it was impossible to keep it in order. Waste paper, a basket being used into which bills and checks were poured as fast as they came.

Old stocks are in a high league by the minute, and the scarcity of stock in the lucky company is only exceeded by the extreme excitement which prevails. In the brokers' offices this morning business was very slow. There was no selling. Everybody wants to buy and the newer companies are the only people who are willing to sell. Several owners of mineral rights on land and also of stocks are holding on for dear life, and have not sufficiently recovered from the first surprise to figure out what they should ask for their rights. Everything relating to values is in confusion.

ENORMOUS AMOUNT OF TRADE BETWEEN PARTS OF THE EMPIRE

London, May 16.—Replying to a question in the house of commons yesterday, John Burns, president of the board of trade, said that exports of a total value of over £2,000,000 were made to Canada from the United Kingdom during 1913, 84 per cent. of which were wholly or chiefly manufactured here; £24,000,000 to Australia and £10,000,000 to New Zealand.

English Engineer Honored
New York, May 16.—Sir William Wilcox, K.C., M.G., celebrated English engineer, constructor of the famous aqueduct in the city of London, and one of the original Garden of Eden, was the guest of honor at a luncheon tendered him yesterday by the Filings of the U. S. at the White Hall club.

New Salvation Army Branch.
Winnipeg, May 16.—Arrangements are being made for a branch of the Salvation Army to be opened at Estevan. The opening services take place Sunday, May 31, at 8 p.m. Captain P. W. Cock of Winnipeg, will have charge of the opening ceremonies, the officers being Lieut. English and Lieut. Tschubert.

To Raise Cavalry Mounts.
Ottawa, May 16.—The lease of 65,120 acres of grazing land south of the Red Deer river in Alberta to the national livestock exchange limited, of Montreal for the raising of cavalry mounts for the Canadian government and the British war office has been ratified.

You May Enter This Unique Grocery Contest Starting Monday! Read:

We Want to Know Why?

A Gift of "Seal of Quality" Flour to the Three Persons Sending Us, What We Shall Adjudge the Best Reasons for the Big Quality Grocery's Favor With Careful Edmonton Housekeepers

1. This is a Contest and it isn't. In other words this many hundreds will probably participate, each will be but putting his or her own experience in a sentence or two.

2. We are curious to know what you think is the element or factor which contributes most toward the magnificent good will of our new spotless home of "Quality First" Groceries.

3. You will see the Grocery in a different light from your experience than your neighbor. There are a hundred reasons why it has become so popular, but how are we to guess them all without being told by those who look at it from "outside the counter"?

98 lbs. of "Seal of Quality Flour"—1st Prize.
49 lbs.—Second Prize.
24 lbs.—Third Prize.

These to be awarded for answers received up to Saturday night next, May 23rd, in order of their merit. We'd like to hear from you.

ADDRESS:—
ADVERTISING DEPARTMENT
THE HUDSON'S BAY COMPANY.

Camera Fiends, Step Forth!

RIGHT WHEEL, QUICK March!—go forth and look upon the Hills and Dells,—the mountain and Prairie and Lake,—all yours! Yours to recall memories of the gay summer and it's pastimes when Winter bereaves Nature of her warm weather loveliness.

Yours to Have and to Hold
One of these Cameras we tell about will entertain you in a two fold way—pleasure in taking and pleasure in your distance over the Photos when finished.

At \$18.50 Folding Post Card Camera!—

FRATERNAL NEWS AND NOTES

"EVOLUTION OF MAN"
SUBJECT OF ADDRESS
BY BRO. GREGORY

A small but appreciative gathering of members of the Sons of England (which also listened to a most interesting and instructive address on "Evolution of Man" last Thursday evening in the lodge room, 1018 Main street. The speaker was Bro. Stanfield, of the Strathcona lodge, and District Deputy Bro. Gregory, officiated as chairman. A fair number of members from the north side lodge was also in attendance.

Bro. Stanfield's remarks on the various stages of man's evolution were necessarily brief, but they were such as to enable his hearers to readily and intelligently follow the theories of evolutionists from the beginning of things when this world was a burning mass through the various epochs during which the outer crust of the earth cooled and solidified and life in its lowest order began.

The speaker relied considerably upon the experience and findings of geologists and explorers to support the theory of evolution from the lower forms of animal life.

At the conclusion of the address the speaker invited his audience to put any questions covering the topic upon which he had been talking, and in reply to the same he made some very interesting and varied nature of these indicated in no uncertain manner that Bro. Stanfield had succeeded in interesting his hearers and provided them with food for future thought.

During the evening light refreshments were served and at the conclusion of the discussion the gathering dispersed with the singing of the national anthem.

It is to be reminded all members of the S. O. E. residing in all parts of the city that the Strathcona and Edmonton lodges are meeting on the afternoon of Sunday, May 24th, (Victoria Day) for the purpose of attending divine service in the Holy Trinity church, south side, at the invitation of Rev. C. Carruthers. Arrangements are being made for a street parade on a large scale to and from the church and details of which will be announced in these columns next Saturday.

The Strathcona S. O. E. football team are playing their initial game this (Saturday) evening on the south side exhibition ground when they will meet the Edmonton S. O. E. team in a friendly encounter. Supporters of both teams are asked to turn up in large numbers to "boost" their respective favorites.

A strong joint committee of the two

LODGE JOTTINGS

The regular meeting of Court Northern Light, C.O.P. was held last Wednesday evening in the I.O.O.F. hall, 1018 Main street, with a good attendance of members. Organizer C. H. Jewell held a class of seven candidates for initiation.

The regular meeting of the King William R.B.P. No. 896 was held last Monday evening in the I.O.O.F. hall, 1018 Main street.

The first regular meeting of the Edmonton chapter, of the order of Eastern Star, was held in the Masonic Temple last Wednesday evening.

Edmonton Elks No. 13 have organized a baseball team and are preparing to accept challenges from either outside or city teams.

A very successful social and concert was held in the I.O.O.F. hall, south side, last Wednesday evening by the members and friends of the Unity Rebekah lodge, No. 26.

The May ball and promenade held in the Empire auditorium last Wednesday evening by the B.P.O.E. No. 13 proved a huge success. There was a splendid turnout of Elks and everyone reported a good time.

Grand Master G. W. Henderson of Calgary, and R. Meek of Kingston, Ont., were present at a meeting of Oddfellows held last Tuesday evening.

The Decoration of Chivalry was conferred last Wednesday night on Thomas MacCallum of Edmonton and a number of other candidates at the I.O.O.F. temple, Calgary.

Thos. Duff, of Toronto, will address a joint meeting of the Grange lodges of Edmonton district on Friday evening, May 22, at the I.O.O.F. hall, 1018 Main street.

Welfare league, will speak at the men's meeting Monday afternoon at 4:45 at the Y.M.C.A. on the subject of "The employment." All men are cordially invited. Good music and good singing.

The pastor of the Unitarian church, Rev. C. F. Potter, will speak tomorrow at 11 a.m. on "The Kingdom of God is within you." At 6 p.m. a vespers service will be held at 1016 12th avenue, Edmonton, south. At 8 p.m. Alderman East will speak on "The Prefidential Election" at the People's forum, corner Third street and Jasper avenue.

Rev. A. M. MacDonald, a former pastor of the First Baptist church, will preach at both morning and evening services of that church on Sunday.

Captain Edwards and Lieutenant Shaver will conduct their farewell meeting tomorrow at 7:30 p.m. A social will also be held on Tuesday next at 8 p.m.

At St. Mark's Anglican church, corner of Churchill avenue and Eleventh, services for tomorrow are as follows: Morning prayer at 11 o'clock, preacher Q. W. Jones, lay reader in charge. Sunday school at 1 p.m., superintendent, Lennox Jones. Evening service at 7 o'clock, special service, the subject, "The Kingdom of God is within you," by Bishop H. A. Gray, who will also administer the holy rite of confirmation to the candidates who have been prepared by the Rev. W. H. Davis. A hearty welcome is extended to all.

"The Open and Closed Door," "The Judgment Seat of Christ," and "The Laurel Crown" will be the subjects of addresses by Evangelist J. J. Rouse of Vancouver, B.C., in the Gospel hall, Boyle street, between 10th and 11th avenues tomorrow at 7:30, and all the week at 8 p.m.

In Grace Methodist church tomorrow morning Rev. R. H. Leitch, Ph. D., of the Metropolitan church, will be a special service, music by a male quartette, and an address to men by Rev. Leitch.

At the Methodist church, 1018 Main street, on Tuesday and Wednesday the district meeting will be held in the church. On Wednesday and Thursday evening the Alberta Musical Festival concerts will be held in the auditorium, and on Friday night there will be an organ recital by W. H. Hewlett of Hamilton, Ont., who is acting as a judge at the Alberta Musical Festival competition next week.

At the morning service tomorrow at Wesley Methodist church, the subject of the sermon will be "The Rich Man in Hell," by Rev. Leitch. The subject of the sermon will be a question of purely speculative interest, but further reflection will show that the question has a very real value for the life of today. The topic for the evening service will be "The Power of a Woman's Will," by Rev. Leitch. The pastor, Rev. G. D. Armstrong, will preach at both services. Visitors are cordially welcomed at all services.

Tomorrow the pastor will occupy the pulpit at both the morning and evening services at the Eastwood Methodist church. Regular church meeting will be held at 11 a.m. Subject for morning service, "A Bird's Eye View of the Early Church," evening subject, "Lessons from the Life of a Great Leader." A cordial invitation is extended to all, and especially to the strangers in the community.

The Rev. Walter Jones, M.A., vicar of Christ church, Swansea, Wales, will preach in St. Peter's church, corner 10th street and Broadway avenue on Sunday evening at seven p.m.

Even Roberts will occupy the pulpit at the Welsh church Mechanics' hall tomorrow. His treatise will be devoted to the English language, thus enabling the church to extend a welcome to all Welsh people, whether they be Welsh-speaking or not. It will be assisted by J. Davies, Mrs. C. O. Roberts, D. P. Thomas and C. O. Roberts, who will render special music during the evening.

Walter Davidson, secretary of the

Novo Scotia Member Moves For Six Months Hoist on C.N.R.

Edmonton, May 16. At 9 o'clock last evening E. M. MacDonald, liberal member for Pictou, N.S., moved that the government's C.N.R. bond auction be considered for six months hence. The moving of the six months bond came as a surprise to a majority of the members, as it was generally expected that there would be no amendment moved before the second reading stage of the discussion was completed. At 10 o'clock the debate was adjourned.

ALBERTA NEEDS A FARM COLONY FOR DEFECTIVE-MINDED CHILDREN

R. B. CHADWICK, SUPERINTENDENT OF NEGLECTED CHILDREN FOR THE PROVINCE, FACES GRAVE PROBLEM

Striking Presentation of Case for the Feeble-Minded Children of Alberta, Who May Become Prey of White Slaves and Tools for Burglars Unless Placed Under Proper Supervision.

200 CHILDREN OF DEFECTIVE MENTALITY LACK CARE.

(By H. Higginbotham.)

"The crying need of Alberta at the present time is a home for defective-minded children. There is no one attempting to make the situation appear less serious than it is. The sore is eating at the vitals of the community and every day of delay makes the cure more difficult and expensive."

This is the warning note sounded by R. B. Chadwick, superintendent of the Department of Neglected and Delinquent Children for Alberta. Mr. Chadwick is one of the small band of men and women on this continent who are battling for protection of the defective-minded child. Some people would say that Mr. Chadwick and those who think like him are ahead of their time and that their demands are such as cannot possibly be met for ten years to come.

Situation Not Understood

Very little has been done in Canada as yet for the child of deficient mentality. The trouble seems to be that the general public does not understand the situation and it is next to impossible for the ordinary lay person, untrained in dealing with children, to grasp its significance and importance. To the majority of people there are good children and bad children and children who are, unfortunately, out of their minds, or insane. Between the good and the bad and between the sane and the insane, are gradations which are not suspected by any but the skilled observer.

The feeble-minded type is one of these gradations. It is very difficult for many people to understand that there are children—grown up children as well—who are entirely and absolutely incapable of taking care of themselves, who are color-blind, or who are unable to read, or who are unable to take care of themselves. A mental picture is cast on the child's mind, but there is no reaction. There is something lacking in the child's make-up, some call it conscience—at any rate the child does not have the consciousness of any distinction between right and wrong in regard to the two courses of action which appear to be normal.

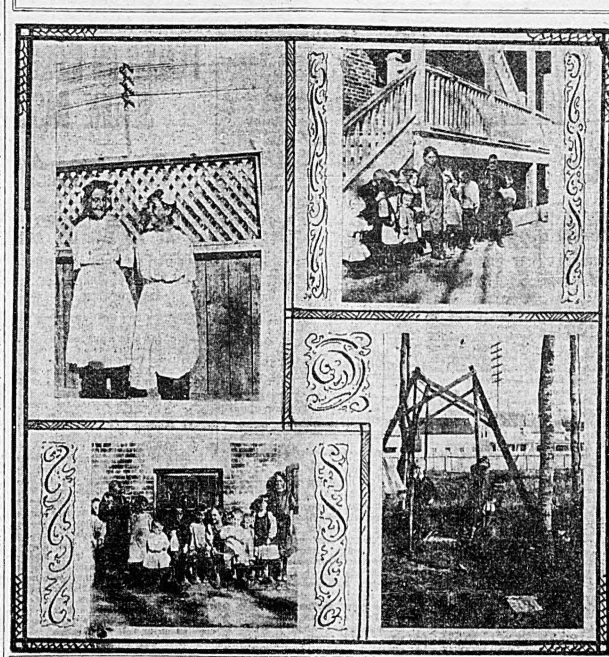

must care for them. If the community does not it is certain that the children will become the tools of burglars and the prey of white slaves and other human parasites.

An Intelligence Test

There is now in use, as the result of investigations extending over 20 years in France and Germany, what is known as the Binet-Simon intelligence test. It corresponds to the optician's method of testing the eyesight. Distorted pictures are shown to the child and the child is asked to tell what is wrong with them. Some children, the defective-minded children, are not able to tell that there is anything wrong with the distorted pictures. To them a man without arms does not appear unnatural. Now, then, shall such children pick their way safely along intricacies of life's devious paths?

By the continued application of these tests, say, once in six months, it is possible to tell whether a child is suffering merely from retarded development, which it will outgrow, or whether there is something permanently and irremediably missing from the mind? The difficulty for the ordinary person arises from the fact that in many re-

HAPPY CHILDREN AT THE EDMONTON CHILDREN'S SHELTER.

to establish a farm colony for these children. With proper supervision they could be made efficient producers. For the scheme to be effective the area devoted to the colony farm would need to be large, as the number of children who at present require to be cared for is in the neighborhood of 200 and the number is constantly increasing from the rest of the community and the supply of defectives cut off at the source. Also, an efficient system must be worked out for the defective-minded adult as well as the defective-minded child. In reality there are all children, for the defective-minded adult of 40 years generally has the mind of a child of eight.

Problem Increasing

The writer has been through a series of letters on the files in Mr. Chadwick's office, asking whether such children can be taken care of by the province. To such letters the reply of Mr. Chadwick has necessarily been that at the present time no provision is made for the care of such children and to hold out hope that before long some provision will be made.

For several years past Mr. Chadwick has referred to the matter in his annual report and last year he said: "Alberta's need should be taken care of immediately, as the problem is bound to increase." In his report for 1913 Mr. Chadwick states: "Our shelter is accommodating a constantly increasing number of these unfortunate children, whom it is impossible to place in foster homes. There is no legal reason why the shelter should care for these children and there is no reason why the shelter should be charged with defectives. In the majority of cases these children, under proper institutional care, can be made happy. A large number of children are being trained to be productive elements. At Columbus, Ohio, an institution of this kind has been started for the care of the mental defective, and under proper supervision is making a record by teaching these inmates to become productive. With every year the problem increases. Many children of this type are immigrating to this country, and should be required to pass a proper mental test before they are admitted, and an agreement entered into whereby they can be returned within three or four years after they are admitted, in the event of the location of mental defectiveness or retarded mental development."

What Delay Means

"To the knowledge of this office there are 150 to 200 mentally deficient children in Alberta. Almost daily inquiries reach this office as to the possibilities of having these children sent to institutions. It is difficult for the managed system to handle them. That the province has made no provision for this unfortunate class, in all we can say, is a disgrace. Many of the children have the delay means is best recognized by those whose sons and daughters are being deprived of the opportunity they had hoped for. In one case which came to the attention of this branch during the past year a woman in Alberta had removed from her care three children who were always a curse to the province. These children are all mentally defective, ranging from idocy to imbecility. The mother is absolutely incapable of directing them. The father is a mental defective depending largely on charity. His whereabouts at the present time are unknown. He has in all

probability, joined the ranks of the hobo type and is a parasite on some community in the United States. The woman is the victim of any man who happens to come to her. She cannot be confined in an insane asylum, as she is not dangerous to be at large, but she presents a danger to the community which is far greater than if she were insane, as she is more likely to become the mother of more mentally deficient children who will have to be cared for during the remainder of their lives. These children will be added to the public charge, as they are absolutely incapable of absorbing teaching."

How They Grow

Investigation made as to the history of one Martin Kallikak by Dr. Henry Herbert Goddard, Director of the Research Laboratory in connection with the Vineland Training School, revealed the fact that Martin Kallikak was the head of two branches of the same family, having had an illegitimate son by a weak-minded girl, and afterwards married a normal woman. Through several generations the history of these two families was cate-

A YOUNG 'MOTHER'

Gardening to be Taught at the Shelter

An assistant officer, who is an experienced gardener, has been appointed at the children's shelter. This officer will have supervision of the garden and of the work done there. It is hoped that enough vegetables will be grown to keep the table of the shelter supplied.

An addition, to cost \$1,000, is being added. This was authorized by the city council some time ago, as the work was being carried on in too cramped quarters.

Seventy-seven children were dealt with at the shelter during the month of April. Of these thirty-nine were discharged during the month, being dealt with as follows: Adopted, four; returned to parents, 15; placed in the work, 12; sent to hospital, two; placed in convent for education and training, two; died, one.

CALGARY HAS SCHOOL CHILDREN WHO HAVE IMPAIRED MENTALITY

The superintendents of schools in the various cities and large towns of Alberta have been written to regarding the number of defective children in the schools. The communication which has been sent out as follows:

The first active step taken towards gathering as complete information as possible regarding children, whose mental condition is such as to require special treatment. I would be grateful, therefore, if you would ask your teachers to supply you with the names and addresses for transmission to this department of children in your city, who are (1) idiotic or mentally defective, which you may be able to give in secret, and (2) defective children in the schools. The communication which has been sent out as follows:

In regard to the situation in Calgary, Dr. Scott, superintendent of city schools, stated that of course, there were no idiotic children attending the schools but there were a number who were mentally defective and the names of these would be sent to the department. He added that it was most important that these unfortunate children should be dealt with specially by the department. From time to time there had been discussions in regard to this subject, but the letter had been received from the deputy minister of education was the first active step taken towards doing something for children with impaired intellects.

The British Road Improvement association has offered a prize of \$50 for an improved horsehoe which will afford the animal a sound footing on the most slippery pavement and at the same time minimize the amount of damage done to the roadway by the clashing types of shoes.

Genesee, N. Y., has installed a new, modern street lighting system.

If the weak-minded girl had been properly cared for the state would have been saved the expense of caring for hundreds of her weak-minded descendants. It is noticeable also that the descendants of the weak-minded girl were more prolific than those of the normal woman.

Can Alberta afford to allow the 200 weak-minded children now in the province to run loose in the community and eventually to marry or to begot illegitimate children and repeat such a story as this?

MEETING THE NEEDS OF WORKING MOTHERS: CHILDREN CARED FOR AT TEN TO TWENTY CENTS PER DAY

Valuable Work Being Carried on by Children's Aid Society of Edmonton—Children's Boarding House on Boyle Street Helps Poor Families to Tide Over Hard Times.

BIG HEARTED MEN AND WOMEN GIVE OF TIME AND MONEY

(By H. P. Roche.)

The Children's Aid society of Edmonton is carrying on a very valuable work in this city, quite distinct from the work done at the Children's Shelter. The society maintains a boarding house on Boyle street, the home being supported entirely out of membership fees in the society, donations, and grant which is made by the city.

One of the most needed parts of the work is that of day nursing. In connection with the home there is a nursery where poor mothers can leave their children in a morning and when they go out to work, assured that their children will be well cared for and protected till they come home at night. This provision enables many struggling women to keep their homes together when otherwise they would be forced to give them up.

Ten Cents Per Day

Ten to twenty cents per day according to the age of the child, is the charge which is made for this work. This is very low considering the food, and attention that are given.

Regular boarders, children whose parents or friends are unable to look after them, are taken in boarded at a rate varying from four to eight dollars per month, according to the means of the parents. In every case there has been earnest need before the children have been admitted to the home. In the majority of cases, where children are accepted at the home, there is only one parent and where that parent is the mother she is usually facing a great financial strait, her earning capacity not being as large as a man's.

Helped Over Hard Times
Numerous families have been assisted in tide over hard times and keeping their homes together by means of the Children's Boarding house. There are paid officers in connection with the work, aside from the staff of two at the boarding house. The work is carried on entirely by big hearted citizens who have freely of their time.

At the present moment there is a great need at the Boarding house for children's clothing for children of both sexes, from five months to twelve years. Donations of clothing or toys or household provisions would be greatly appreciated. In her last monthly report the station stated: "The donations of clothing are now

—The donations of clothing are now

SOME CASES THAT WERE ASSISTED

The following memoranda, selected at random from the files in the office of the secretary of the Children's Aid society show the cases that are receiving assistance:

Memo Re Case No. 516

Mrs. [Name] called to see the secretary on the 19th of February with respect to placing her two children, one, aged three, and the other aged one, in the Children's Boarding House. The father is a railway man and has recently been laid off. He is unable to obtain work here in his own line, or as a laborer. The mother has been offered position scrubbing in city block at night, able to pay about \$5.00 per month for each child. Owing to straitened circumstances the parents will have to vacate the shack in which they have been living and are unable to pay a rent for another. The children were ordered into the Children's Boarding House until such time as the father obtains work, when the house will be brought together again and the children returned to their parents.

Memo Re Case No. 418

The father of the above named children came to the office of the secretary on April 4th. He stated that he is a carpenter by trade, but does not work to the union and cannot get union wages. The mother of the children died in March, 1913. The children were placed by the father into a private family and were well cared for until quite recently, when the family decided to go on a homestead. This left the children on the father's hands. The father has no means to get a keeper in about six weeks time. The children are a boy aged six and a girl aged four. He has secured through the Swedish Lutheran church, Father is able to pay eight dollars per month for each child. He has secured three months work at 40 cents an hour, and not being in the union can work 10 hours a day and get full time on the day. The children are well supplied with clothes and are in a healthy condition.

Memo Re Case No. 350

This case came to the notice of the

AT THE SHELTER ANXIOUSLY AWAITING HOMES.

almost a thing of the past and these we miss very much in our emergency cases."

Society's Officers
The Children's Aid society of Edmonton was organized under the authority of "The Children's Protection Act" of Alberta. The officers are as follows:

Hon. president His Honor Lt. Gov. Helyar, president C. E. Edwards, secretary J. S. McCoppin, Dr. A. Lehmann, treasurer M. S. Booth, secretary H. P. Roche, Phone 5184, hon. solicitor, A. F. M. M.P.

Staff
Agent, R. Dealy, Phone 9151, probation officer, Miss A. M. Jackson, shelter matron, Mrs. G. M. Bate.

Objects
To prosecute persons who contribute towards the delinquency of children. To maintain an educational campaign on subjects relating to child care.

To supervise and promote legislation in connection with the object for the welfare of children. To agitate against all that tends to rob children of the right to grow up in an atmosphere of purity and moral cleanliness.

To protect children from cruelty, to care for and control neglected children and to provide foster homes for orphan or neglected children.

To create a sentiment for the establishment of wholesome amusements, such as small parks, playgrounds, gymnastics, free baths, etc., and the like.

The government of South Australia has offered a bonus of \$2,000 (\$2,500) to the first person or body corporate that obtains from a bore or well situated in South Australia 100,000 gallons of crude petroleum containing not less than 10 per cent. of products obtainable by distillation.

secretary of the Children's Aid society on February 8th, the father is dead, mother in destitute circumstances. Mother secured position through the Y. W. C. A. for \$10 per month on the south side. Being unable to take child to home of her employers, child was admitted to the boarding house on February 8th on order of the secretary, the mother agreeing to pay \$5.00 per month for keep of the child.

Memo Re Case No. 313

Father sick in bed and unable to find work. Three children in family, aged nine, seven and six years respectively. Mother offered position as dishwasher at Athabasca at sufficient salary to support herself and husband at Athabasca. The mother is now in the hospital for the keep of the three children in the Board House. Unable to support the mother, the mother is taken off her hands. Family came from Newia, Alberta, where they had been playing with the mother's parents, at Athabasca at sufficient salary to support herself and husband at Athabasca. The mother is now in the hospital for the keep of the three children in the Board House. Unable to support the mother, the mother is taken off her hands. Family came from Newia, Alberta, where they had been playing with the mother's parents, at Athabasca at sufficient salary to support herself and husband at Athabasca.

Apparently a genuine case of destitution, which could probably not be assisted in any better way than through the medium of the Children's Boarding House.

Memo Re Case No. 406

Mrs. [Name] mother of this child, aged 61-2 years, came to the office of the secretary on the 26th of March. She stated that she has separated from her husband. The mother is working on the south side, earning \$16.00 per month. She will pay \$5.00 per month for the keep of the child. Her intention is to save sufficient money to return to England and take the child with her. The mother's address is General Delivery, South Side. Child to be sent to school with the other children in the Children's Board House.

mind. The child of defective mentality sees only one course—that which it desires to follow and there is nothing in his brain which tells the child that he may be doing wrong in following that course.

Community's Responsibility

Many normally minded people would be the truth of this case. Had they been in the Juvenile Court the other day when a child, asked why he did certain things answered innocently: "Well, why I made that way." The scales might have dropped from their eyes. The child believed that because she had certain impulses there could be no wrong in following them. This is not an isolated case by any means—it is merely the outlook of the defective-minded child from there are, to the knowledge of the department of neglected children, some 200 in this province.

Once this incapacity on the part of the child with deficient mentality to distinguish between right and wrong is recognized one must see that it is worse than useless to punish such children. There is no use in punishing a child who is incapable of feeling remorse. Remorse can only come from a knowledge of having done wrong. These children have no such knowledge.

What then is to be done with them? Observers like Dr. Goddard, of Vineland, New Jersey and experts who have devoted their lives to the study of the problem assert that there is only one thing to be done. The community must assume complete responsibility for these children. They have not the minds to enable them to take care of themselves. Therefore the community

spects such children are apparently normal and some of them are even viewing children. The highest grade of defective is known as the Moron type. Such children come out of these tests absolutely normal on all things except moral responsibility. In this respect they are not immoral, but unusual.

Question of Cost

The conclusion which must inevitably be reached is that the problem is one of the children in the training school at Vineland, New Jersey, have shown a capacity for work—and skilled work. Some of these children, when they are practically self-supporting. They cannot, however, be allowed to go out into the world. Removed from a suitable environment they could not use the capacity they have and would soon drift into the ranks of hopeless degenerates.

Farm Colony System

Probably the most satisfactory system is the farm colony system. In this province, where there are good agricultural lands, it should be feasible

WORKINGMAN'S DEVICE OF SCHOOLS OF AGRICULTURE

Interesting Facts on Schools of Agriculture of Denmark Which Alberta Agricultural Schools are Modelled—Plan to Educate Young Men in Atmosphere and Surroundings Which Will Not Spoil Them for Life on the Farm.

Schools of agriculture in Denmark have been one of the main factors in making that country agriculturally speaking, the foremost in the world. Alberta has already three schools of agriculture, at Oles, Claresholm and Vermilion, modelled on the same plan as the Danish schools. It is the plan of the Hon. E. B. Macdonald, minister of agriculture, to visit Denmark this summer with a view of further extending the system of agricultural schools in Alberta and it is probable that in the future a school will be established in connection with each of the government demonstration farms.

The particulars given below of the Danish schools of agriculture, taken from the report of the Canadian Commission on Vocational Training, provide ground for an interesting comparison between the Danish schools and those of Alberta.

Keep Boys on Farm

The agricultural schools of Denmark have grown out of the efforts of the farmers and their leaders to instruct and train young men for following farm life without being influenced by influences from surroundings, instruction or occupation which would be likely to even them with the city boys. They are all residential schools; the pupils live together in a manner similar to that which has been the custom at length under the People's High Schools. In addition to the classroom and a small model farm, the schools with specimens useful for illustration and demonstration, the Agricultural School has a farm connected with it as part of its equipment.

The farm is not managed or run as an experimental station, and only to a very small extent does it use illustration plots. An illustration is given of the management of the farm as a whole according to the system and methods which yield the best results in the locality. The principal is also the managing farmer. The preservation and increase of fertility, and the quantity, quality and suitability of the crops for market and for consumption, are considered. The numbers and the kinds of live stock are determined by the capacity of the farm as directed towards making profits. Since the institution receives a comparatively small grant from the state, the principal must make a profit-making establishment, or at least in such a way as to make costs meet after paying salaries and providing for the maintenance of the school.

Students and Courses

The Agricultural school, which at first grew as a branch from the High school system, follows the High school methods, but has agriculture and the related sciences as the main part of its subject matter. Students pass no examination for admission and receive no certificate at the end of the course.

After leaving the elementary school at 14 years of age, the student returns to his home for a few years; then, after 18, he goes for one or two winters to People's High School to continue his education. They then return to farming, or first take a course at an Agricultural school. The popularity of these Agricultural schools is the proof that they meet a felt want among the people, in made clear by the fact that each winter they are attended by about 2,000 pupils.

Students are admitted from 18 to 25 years of age. They all come with practical knowledge of farming operations and of farm work and management. The instruction is therefore the aim being to leave the students with clear ideas of the application of the principles of agricultural science to farm work and management. An effort is also made, by lectures and otherwise, to let them acquire such an understanding of their work that they will like it better and have an intelligent appreciation of its relation to the progress and prosperity of the community.

Restored to Health

Warner's Did More Than Any Other Remedy.

Mrs. L. C. Fleg suffered intensely for months from kidney and liver trouble, but found relief and health in Warner's Safe Kidney and Liver Cure. "I was ill and miserable for months with backache, stiffness, rheumatism, pain and neuralgia. I had bladder trouble. After taking other medicines with little or no relief, I tried Warner's Safe Kidney and Liver Cure. The urinary disorders and pains disappeared and my health and strength returned. Six bottles effected a complete cure."—Mrs. L. Fleg, 1433 Dublin St., Chicago, Ill.

Most people do not realize the prevalence and alarming increase of kidney disease. When the kidneys are diseased, the urine acid is not carried off, causing gout, lumbago and rheumatism. Warner's Safe Kidney and Liver Cure possesses remarkable remedial qualities and is pleasant to take. At all druggists in 50c and \$1.00 sizes. Write for free sample to Warner's Safe Remedies Co., Dept. 454, Toronto, Ont.

GOVERNMENT COMPETITION UNNECESSARY

Writer Offers Alternatives to Dominion Plan of Free Sires.

IMPROVE MARKETS AND MEANS TRANSPORTATION Suggested That Government Buy Female Stock and Sell at Auction.

In view of the protest raised by Alberta breeders over the Dominion government's policy of distributing sires to private breeders, it is timely that the following articles from the pen of E. J. Jacobs, editor of the Farm and Ranch Review, be published.

First it should be distinctly established that a government has no right to engage in a business enterprise in competition with private enterprise except and unless the government has given some legislative advantage to those engaged in that industry, and this advantage is being used to exclude the private enterprise.

Added to this we know reasonably well what the live stock industry needs which is not being met by the private sector. The country would benefit by a greater number of female stock of cattle, sheep, and to a lesser extent, horses and swine for breeding purposes. It would benefit by higher prices and freer access to absorbing markets, and having both the former it would benefit by the services of the best sires of the different breeds available. This, of course, is not all by which the country might benefit, but the undertaking to meet such demands would considerably enlarge the scope of the animal husbandry branch of the department of agriculture.

Buy Female Stock

How can the government proceed to assist the live stock industry by ministering to its needs without the outlet for our stock by enlarging the outlet on the part of private enterprise? First, by securing young grade female stock in districts where the population, such as Kansas City, St. Joseph, Omaha for cattle, and Eastern Canada for horses, are not selling them at auction in districts where they are wanted. The reason this work is not done is because the difference in value in the two districts is not sufficient to invite the dealer to do so.

Along about September there will be hundreds of young female stock in districts where the population is not selling them at auction in districts where they are wanted. The reason this work is not done is because the difference in value in the two districts is not sufficient to invite the dealer to do so.

They Cured All Of His Troubles

What Nova Scotia Farmer Says of Dodd's Kidney Pills.

Just Why John A. Campbell Recommends Dodd's Kidney Pills to Everybody Suffering from Kidney Disease. "These are the words of Mr. John A. Campbell, a well-known farmer here. Mr. Campbell suffered from Kidney Disease for three months. He used two boxes of Dodd's Kidney Pills with the result that he says emphatically, 'Dodd's Kidney Pills cured me of all my troubles'."

It is well to note that Mr. Campbell says he was cured of all his troubles. For while you cure the kidneys with Dodd's Kidney Pills the result is new health and vigor all over the body. The kidneys are the organs that strain at the impurities out of the blood. When the kidneys are wrong they fail to do their work and the impurities remain in the blood, the circulation becomes clogged and the result is headache and weakness. Dodd's Kidney Pills correct all this and give new life and energy all over the body.

Free Range Days Ended In 1912 there was a phenomenal corn crop in the south and the prices ruling for the silos did not encourage farmers to sell the corn. Men who had not fed for some years went into the cattle market and sold their cattle for feeding and by bidding the prices upon feeding cattle forced the prices of live cattle to a point where they were feeding a boom.

When spring came and the cattle should have been fed upon the range, the price of live cattle was so low that they were not worth the trouble of feeding. The result was that the cattle were sold at a low price and the farmers were left with a large number of one-time haunts of the range who were being occupied by the cattle.

The cattle market was so low that the farmers were not worth the trouble of feeding. The result was that the cattle were sold at a low price and the farmers were left with a large number of one-time haunts of the range who were being occupied by the cattle.

WHAT AGRICULTURAL EDITORS ARE SAYING

The Future of the Horse

To one who is inclined to be pessimistic regarding the future of the horse, a visit to such shows as that of the Canadian National Horse Show held last week in Toronto, will prove a good antidote. Instead of deterioration, as one would naturally expect under the general displacement of the light harness horse by the automobile, the quality of the animals of this level is not referring to performance in the ring, but to the type and quality of the individuals shown. Irrespective of performance, the average quality all through was higher than it has been for years past, and indicates that someone somewhere has been looking after the horse. The display of carriage horses and drivers was the best seen for some years. It is doubtful if a better display of the light harness type was ever seen at a Toronto show, which is saying a good deal. It is the wheat crop that has developed scores of other industries all over eastern Canada, and now, after plundering the western farmers for years, the interests and their spokesmen are growing a method of misrepresentation and miserable abuse. "The Grain Growers' Guide."

Getting Down to Work.

The most positive feature about the affairs of people in both country and town these days is a quiet determination to perform some useful, profitable work. This is in marked contrast to the atmosphere which prevailed in the country the past three or four years. True, many people have been content to be idle in the house, but there has been a vast army of half-idle men who have been trying to get something out of life. This element is now not so prominent, in fact scarcely noticeable. They have gone with the decline of the fever of speculation and are fast settling down to the humdrum of taking wealth from the soil and distributing it in exchange for necessities of life.

The reaction from the "easy come, easy go" sort of existence to which many had become accustomed and which many felt is not the most agreeable thing that has happened in the natural forces do not permit of continuation.

The strongest arguments against the distribution put forward are these: First, that stallions are being given free to discontinue the breeding of good blood and that can well afford to pay for any breeding males they may require. Second, that the free distribution of breeding males to needy districts must tend to demoralize the cattle industry by reducing the price of stallions to a point where they are not worth the trouble of raising.

The present beef demand is healthy and indicates that the farmer feels safe in putting back the field and in breeding. He feels rightly that with the gradual elimination of the real head of the cattle industry, the market will be such as to make the industry permanent and profitable.

The small producer must not be content with the class of cattle raised in the sections that have gone out of the rearing business. For the past few years conditions have been such that the market is demanding the steer of better breeding and quality. Finished and marketed at an earlier age, smaller cuts of meat are now looked for by the average consumer who can not afford to buy so many pounds as was possible during the palmey days of the past. Better breeding, better feeding and early finishing should be the slogan of the producers in the head of the cattle industry. The successful cattlemen demonstrate the possibility of producing beef on high-priced ranges.

Have the hens enough dirt and meat? Fatten quickly to meat required to produce eggs.

Tainted milk is often caused by cows getting muddy food or impure water.

Regularity of the bowels is an absolute necessity for good health. Unless the waste matter from the bowels is collected there is got rid of at least once a day, it decays and poisons the system. Dr. Morse's Indian Root Pills bowels effectively without weakening, sickening or griping.

A TRIP TO PANAMA

THE CAPITAL wants every one of its readers to take a trip to the GREAT PANAMA CANAL and see the wonders of this mighty achievement. You say you can't spare the time. All right, then we'll bring the Canal TO YOU—all in one BIG volume, filled with PICTURES of ACTUAL SCENES never before published, described in words that hold you spellbound. Read on, and learn how you may get this magnificent book—this complete story of Panama in picture and prose—

Not merely a picture book, but an educational work of rare interest to every member of the home.

FOR \$1.20 ONLY

Art plates reproduced from water-color studies abound throughout the entire magnificent volume.

Every progressive man, woman and child is eager to know all about the Panama Canal and the remarkable country through which it passes. Realizing this fact several hundred newspapers have arranged to take an enormous advance edition of the most elaborate and complete illustrated history of PANAMA AND THE CANAL, published by the Syndicate Publishing Co., of New York City.

This company is eminently fitted to issue such a work at a minimum cost. It has heretofore supplied through daily newspapers millions of high-class dictionaries and other books.

THE CAPITAL is the one paper in this section through which PANAMA AND THE CANAL IN PICTURE AND PROSE can be had. The plan outlined below tells you how to get this only complete Panama Book ALMOST FREE.

The large volume is twice the size of an ordinary novel; it is a most handsome book, stamped in gold, with beautiful color panel on front cover, showing the famous Culebra Cut; it contains 450 large pages filled with interesting information of rare educational value to every reader. The illustrations are modern works of art, covering every important scene in the Canal Zone; they include 16 water-color plates with more than 600 photographic studies.

Presentation By The EDMONTON CAPITAL

Willis J. Abbot, the versatile writer on international subjects and author of many books of history and travel, spent months in Panama and the Canal Zone in the preparation of this volume. He collected at first hands the complete history of the great Canal, with a wealth of historical data concerning Panama which has never before been written. The result is a human interest story of this beautiful land and its people from the early days when Columbus tried to find a natural waterway from the Atlantic to the Pacific, down to the present time.

Special staff photographers made the hundreds of beautiful views which illustrate practically every page of this exhaustive book.

The well-known artist, E. J. Read, made the sixteen sumptuous water-color studies which are reproduced by the latest color processes on specially made paper.

The Panama Canal, the greatest engineering achievement of the world's history, cost more than

\$400,000,000

It links the two greatest oceans, and becomes the most important factor in peace and war. So where is the red-blooded inhabitant of this globe that does not feel vitally interested in it? Truly it is the wonder of this progressive age!

PANAMA and the CANAL in PICTURE and PROSE

The greatly reduced illustration printed below shows less than half the size of the large illustrated volume

The Most Unusual Canal Scenes Described in Word Pictures That Fill You with Astonishment at the Wonders of this Great Undertaking

ONE OF CANADA'S
FINEST SCHOOLS

Standing of Edmonton in
Musical Circles Shown by
Columbian Recital.

REMARKABLE IS ADVANCE

Manager Beaufort Has High
Opinion of City as Cen-
ter of Culture.

An institution which is helping to
popularize a form of music in
the musical circles of the continent,
the Columbian conservatory of music
gave evidence of remarkable growth
last evening, when its pupils gave a
recital in the lecture room of the First
Presbyterian church.

The first recital was given in March
of last year, when only a handful of
took part, and after the conservatory
had been in existence for only a short
time. The work of the pupils at this
night's recital proved, if nothing else
had, that the first year, always the
most trying one for an institution of
this kind in a young country, had been
passed in a manner very creditable and
encouraging. It can now be reckoned
as one of the dominant's finest musical
schools. In fact, the Winnipeg Columbian
Conservatory of Music, which the
Edmonton school is affiliated to,
is the largest in Canada.

Ernest Beaufort, the manager, and
his efficient staff, was the recipient
last evening of many expressions of
congratulation and appreciation of
what the conservatory had done dur-
ing the year for its pupils and for the
city and province as a whole. Mr.
Beaufort intimated to the Capital that
the school would continue to advance
as fast as would be warranted by pa-
trons, which he said had been as far
unsurpassed by any similar city in the
country. Edmonton, he thought, was
becoming one of the centers of music
and culture in North America as well
as in Canada.

Remarkable advances were made
since the last recital by the pupils.
This fact was commented on by sev-
eral of the lecturers, and it was pre-
sent at both. The exhibitions were in
fact, almost uniformly excellent.
The program was as follows at nine
o'clock: "La Cinquantaine".....Gabriel Marie
Marion Kodale.
"Invitation au val".....Weber
Nellie Botsford.

"Romance".....Diabelli
Reading—"Mrs. Mayor's Story".....Ralph Connor
Ella Taylor.

"First Violin".....Behr
Dorothy Richards.

"Rustle of Spring".....Sliding
Charles Leach.

"March in the Night".....Gottschalk
Edmund Nelson.

"Song—A Dream of Home".....Ardetti
Ethel Nielson.

"Dance of the Dandelion".....Poldini
Bessie Barrie.

"La Fontaine".....Bohm
Edmund Nelson.

Reading—"The Tullumaine Trail".....Pauline Johnson
Elizabeth Mitchell.

"In the Rose House".....Henning Von Koss
Jean Macdonald.

Reading—"The Cremation of Sam
McGee".....Robert Service
J. Milton McIntyre.

"In a Gondola".....Saar
Clara Arnold.

"Then You'll Remember Me".....Balfe
Alma Anderson.

Song—"Prologue from 'Il Pagliacci'"
Leonoreville
Thomas O. H. Cook.

"Humming Bird".....Krieger
Laura Hughes.

Reading—"Mary, Queen of Scots".....Scott
John Macdonald.

"To the Wall".....Bohm
Alfred Poole.

Reading—"Scene from Love's Labor's
Lost".....A. H. Rice
Jean Logan.

HIGH SCHOOL CLUBS
WIND UP SEASON BY
SOCIAL AT Y.M.C.A.

Friday night, at the Y.M.C.A., the
United High School clubs of the Victo-
ria, Strathcona, and Technical
schools held their first annual "At
Home." This event came as a suit-
able "wind-up" to the season's work,
and was voted by all to be one of the
leading social events in the school life.
The program started off with a prom-
enade through the building, after
which supper was served, the rooms
being specially decorated in the club
colors. The program for the first time
pleasing features of the evening's pro-
gram was the toast list, most of the
boys taking part for the first time.
These efforts in many cases abounded
in wit, as brevity is said to be the soul
of this commodity. However, some of
the speakers showed great promise as
after-dinner speakers, and will doubt-
less be heard from in the near future.
The toast list included: The King, Our
Country, responded to by R. McFar-
land; Our Schools, responded by H.
Scott and responded to by W. L. Hie-
rden. High School clubs, proposed
by W. T. Tilt and responded to by
Max Huff; The Young Men's Christian
Association was toasted by Gordon
Thompson and responded to by J. W.
Ward. Harris Brighton did the honors
for the ladies, Miss Scott and Mrs.
Ward responding. The musical pro-
gram included a piano solo by Miss
Thompson, song by R. Archibald, in-
strumental by Miss Williamson and
reading by W. Moore. The musical
program the party matched
bravely and skill in several games, fin-
ishing off the evening with "God
Night, Ladies," and "God Save the
King."

There are 600,000 factory girls in
Japan and of this number 800,000 are
under the age of 30 and 400,000 are

INSTRUMENTS FOR
PROFESSIONAL MEN
BE SUPPLIED

Edmonton to Become Center of
New Business for All
Western Canada.

FORMERLY TORONTO WAS
WAS NEAREST PLACE

Convenience for Physicians
and Others—May Develop
Into Manufacturing.

Believing that Edmonton is the
natural distribution center for the
whole west and that the west needs a
business and supply house of the kind,
James E. E. Edwards and A. O.
Chilton have started here a concern to
be called the Scientific Instrument
Supply company, with offices in the
Edmonton hotel, opposite the Corona
hotel, on Jasper street.

The company will handle and dis-
tribute from this city every kind of
physicians' and surgeons' instruments,
surveying and engineering supplies and
tools, dental supplies and equipment
for chemists, laboratories, agricultural
and technical schools and a full line of
almost every kind of instrument, also
telescopes, microscopes, spectrometers,
field glasses and other articles of this
nature, besides blue prints, drawings,
etc.

Heretofore it has been necessary to
send as far east as Toronto for many
of these articles and to Winnipeg for
most of the others, but the men who
have formed this company expect that
Edmonton and the country tributary to
it will grow to be the center of in-
strument supply for at least one section
of the west.

In fact, Mr. Sellers will leave tomor-
row for Calgary, Medicine Hat and
other western cities to arrange for
the opening of branch houses.
Mr. Sellers, who is a graduate in en-
gineering of Valparaiso university and
has had considerable experience in his
profession in Chicago and elsewhere,
explained at the King Edward hotel to-
day that many of the instruments are
manufactured in the east, but many are
imported from Germany, a place by the
name of Jena there being one of the
big places in the world where they are
made.

A special branch of the business of
the scientific instrument supply com-
pany will be dealing in supplies for
moving picture houses. With the re-
markable growth of this business, has
shown in the last decade, it is believed
that there will be a big field for these
in the west, and ultimately, if condi-
tions warrant, the class of goods that
will be manufactured here, as well as
others, in fact.

Mr. Sellers has been for seven years
secretary of the Edmonton Builders'
exchange, while the other members of
the firm, A. E. Edwards, is also well
known in the city. Mr. Edwards was
connected with a scientific instrument
supply house in London, England, pre-
vious to coming to Canada.

The company has inaugurated a re-
pair department, and will deal in work
will be repaired and missing parts sup-
plied by experts. This will be, no
doubt, of great convenience to physi-
cians and others and therefore to the
public at large.

LABOR DEPARTMENT
FIGURES SAY FEWER
STRIKES THAN IN 1913

Ottawa, May 16.—According to the
record maintained by the department
of labor, a feature of the labor situation
during April was the marked decrease
in the number of strikes. By a noted
as compared with the corresponding
month of last year. During April,
1913, 25 strikes were commenced, to-
gether with the eight previously in ex-
istence, affected 2,140 employees and
caused time loss of 1,000,000 work-
ing days. The record for April, 1914,
shows only ten disputes in existence
(four being new), affecting 1,237 em-
ployees and causing time losses of
about 250,000 working days. Industrial
conditions were not seriously affected
by trade disputes in any particular lo-
cality, the strike of coal miners on
Vancouver island being the only dis-
turbance affecting a considerable num-
ber of working men. Five disputes re-
mained unsettled at the end of April.

Tenders for the
General Contract
for the
Construction of a
Dormitory Building
Provincial Asylum,
Ponoka, Alberta.

Sealed tender, addressed to the under-
secretary of the department of the
provincial asylum, at Ponoka, Alberta,
for the construction of a dormitory
building, will be received up to and
including 11 o'clock noon, Monday,
May 18, 1914.

Full particulars may be had at the of-
fice of the provincial asylum, at Ponoka,
Alberta, or at the office of the
department of the provincial asylum,
at Edmonton, Alberta.

An approved tender, when received, will be
opened in the presence of the
Minister of Public Works, Edmonton,
and the tenderer will be notified of the
result of the tender.

Should the contract be awarded the
successful tenderer will be required to
execute a guarantee bond on approved
terms, and to deposit with the tender
a sum of \$10,000 as a guarantee of his
faithful performance of the contract.

The deposit of the unsuccessful bidder
will be returned within six days after
the contract is awarded.

The right is reserved to reject any or
all bids, or to accept any or all of them.

The Big Clearance Sale of CATALOGUE Styles in Women's and
Misses' SUITS Arouses Great Interest

NEVER before in the history of the Store have we had such overwhelming response to a Suit
Sale as that which followed the first announcement concerning this Special Clearance
Sale of Catalogue lines, together with left-overs from our regular retail stock. The ridiculously
low prices have induced scores of women, who usually make do with one suit, to buy an extra.
Those who favored the plain tailored styles early in the season are now buying the more novelty
styles and vice versa.

Another good feature of this Sale is that almost every suit included is
an exclusive style, except in the cheaper lines. Don't fail to choose
yours Monday.

At \$12.50—Regularly \$18.50 to \$25.00:

A splendid grouping of women's and misses' suits, in fancy or semi-tailored styles, in
fine serges, broadcloth effects and novelty weaves; colors, brown, navy, tan or black;
silk or satin lined. Coats cut in kimono or semi-tailored styles, with rounded or
cutaway fronts, trimmed on the collar with long roll or flare collar, trimmed with
broast pocket trimmed with bone or self covered buttons. Skirts in pet-
ticoat or over-skirt effect. All sizes. Regularly \$18.50 to \$25.00. Sale
Price **\$12.50**

At \$17.50—Regularly \$25.00:

Plain Tailored Suits of fine French Serge in navy and black only, lined with skinner
satin. Smart stylish coats, slightly cutaway in front with notch collar, plain sleeves,
broast pocket trimmed with bone or self covered buttons. Skirts in pet-
ticoat or over-skirt effect, trimmed with deep folds in over-skirt effect. Regularly
\$25.00. Sizes 16 to 44. Sale Price **\$17.50**

At \$19.95—Regularly \$30 to \$32.50:

Fancy Suits, fashioned in all the newest novelty materials and colorings, in blues,
tans, greys and greys, lined in plain or brocade silk. Coats cut in the loose straight
effects, raglan or kimono shoulders, with long roll or flare collar, trimmed with colored
embroidered silk or plain satin in shades to harmonize. Skirts in the pet-
ticoat or over-skirt effect. Regularly \$30.00 and \$32.50. Sale

Women's, Misses' and Children's
Tailored Hats in Good Selection

OUR PRICES on plain tailored hats for wo-
men, misses and children have this season
set a new value standard in millinery. Women
who have heretofore gone to millinery stores
for a plain tailored hat now look to us to pro-
vide the requirements. And we do it at re-
markable savings—especially where there are
a number of girls in the family.

Women's and Misses' Plain
Tailored Hats \$1.75 to \$10

Priced at \$1.75 to \$10.00 we are
featuring some extra good
values in chip, Tughal and Milan
straw hats, in grey, black, navy, blue,
blue, etc., in mushroom, sailor
and other smart shapes; trimmed
with ribbons, feathers, and rib-
bons. Prices **\$1.75 to \$3.50**
Also some very smart Panama
hats in smart new styles at \$4.00
to \$10.00.

Children's Hats at 40c

Neat becoming styles in Milan
and straw hats, in cream and
black shades in mushroom and sailor
shapes; trimmed with
band and ribbons.

At 65c we are showing some pretty little hats made
of rib in combination shades trimmed with silk cord
around crown. Colors are champagne and navy,
champagne and white, tan and sky, navy and tan
and white and sky.Clearance News From the CHILDREN'S DEPARTMENT (2nd Floor),
Mothers Will Welcome

IT'S a Special Clean-up of odd styles and broken size ranges that have accumulated during the
past few weeks, together with surplus stocks.
A Sale that's sure to be welcomed by scores of mothers, for it will be seen at a glance that the
material and trimmings can't be bought for the prices we've marked this clearance lot.
